

Incremental Epic Fact Sheet Savings Calculator

Instantly calculate your possible savings with Incremental Epic!

1. Read all the fact sheets, check out our website at www.incremental.eu.com, view the screencams, try the demo;
2. From this, identify all the people in your yard who would benefit by using Epic, and estimate how much time they would save;
3. Fill in the table below (we have some example figures to guide you).
4. Contact us and we will show you how the savings can be even greater!

Constants

Working Days Per Year	235
Hours Per Day	8

Position	Time Savings (daily minutes)	Num. of Positions	Salary	Overheads (%)	Hourly Direct Costs*	Savings**
Senior Manager	40	1	40,000	60	34.04	5,333
Ship Manager	40	2	30,000	60	25.53	8,000
Foreman	60	3	30,000	60	25.53	18,000
Estimator	60	2	20,000	60	17.02	8,000
...						
Total Annual Savings:						39,333

* Hourly Direct Costs = (Salary x (1+Overheads)) / (Working Days Per Year x Hours Per Day)

** Savings = Number of Positions x Hourly Direct Cost x Working Days Per Year x Epic Time Savings / 60

And remember, this is only time savings. We have not considered:

- fewer 'lost' purchases;
- better manhour recording;
- immediate warning of problems;
- faster, more accurate invoices;
- fewer manual errors.
- all the other causes of lost time and money

For a full consideration of the potential savings for your yard, please contact us at enquiries@incremental.eu.com.
